

GHPOA BOAT/TRAILER TEMPORARY PARKING POLICY

AS AMENDED OCTOBER 17, 2005

BY THE BOARD OF DIRECTORS

The Board's policy on storage of boats and trailers in driveways is as follows:

1. During the months of April and May homeowners may park their boats and trailers in their driveways for an aggregate period of ten (10) days. This is in recognition of the fact that delivery dates, docking schedules and weather require greater flexibility.
2. During June, July and August, boats and trailers may not be parked in driveways for more than an aggregate of seven (7) days after which time the homeowner may be cited for a covenant violation.
3. During September and October boats and trailers may again be parked in the driveways for an aggregate period of ten (10) days to accommodate delivery and storage for the winter.
4. During November, December, January, February and March, boats and trailers are not permitted at any time to be parked in driveways.

Effective: January 1, 2006
